Computers in the Classrooms-Labs have *Microsoft Office* software installed. All rooms permit printing.

These Rooms serve a dual function as Library Classrooms and Computer Labs. Room B27A is an Open Lab for student research and academic use. Room B27C is the Library's primary classroom. B27B is used as needed for instruction - as well as an overflow Lab for students when free. Fine Arts is purposed for lectures, film screenings, and as an iPad Lab.

Collection Development

Donation - Weeding Policy

Collection Development

Based on annual allotment of funds - the Library's top priority is to support Lehman College's undergraduate and graduate curriculum and instruction. In addition, the Library acquires print, electronic, and multimedia resources to support faculty research and scholarship. Our overall objective is to build a balanced and comprehensive collection of quality, authoritative, and current research, reflecting a multiplicity of viewpoints and perspectives.

Purchase of course textbooks is limited by budget and number of students enrolled in the course. Faculty is encouraged to provide a desk copy of the required text when publisher supplies one.

Multimedia

The Library collects multimedia resources to support Lehman's curriculum across all disciplines, foster research, as well as enhance student learning, cultural enrichment, and intellectual advancement.

The multimedia subject librarian welcomes purchase recommendations from faculty, though breadth is limited by the budget for multimedia resources.

Selection criteria include:

- *Capacity to support curricula or faculty research*
- *Potential active use by Lehman community*
- *Faculty recommendation*
- *Quality and cultural enrichment value*

Generally, the Library does not collect commercial or feature films, unless they have cultural value or are being used within a course. Faculty will be referred to their local public library or commercial resources for these products. Most films based on literary works will be purchased.

The primary collection format is DVD - with VHS as a backup when DVD is not available. Currently we do not support high definition formats or computer application software.

Donations

The Library prefers titles published within the past ten years [five years for sciences and health sciences]. While we welcome donations of appropriate materials - gifts should be directed to the pertinent subject librarian. Before delivering materials, donors should prepare a list of items including author, title, publisher, publication date, and condition. The subject librarian reviews this list and determines whether or not material will be accepted.

Donors will receive an acknowledgement letter from the Library noting number of books donated. The Library reserves the right to incorporate materials into the collection - or may sell or dispose of it at its discretion.

Weeding Guidelines

Library faculty systematically reviews the stacks and donations to evaluate what to acquire or discard in order to maintain a useful and up-to-date collection. Weeding criteria may be modified for specific subject

areas.

Replacements - New Editions - Binding - Mending

When identifying items for withdrawal - library faculty may decide whether to request replacements, newer editions, or recommend rebinding. Faculty should maintain ongoing list of titles to order when budget permits.

Government Documents

When withdrawing Depository items [Technical manuals in Science, Health; Education Reports] - please inform Government Documents Librarian, as there are guidelines for discarding.

Criteria

Content	Is content of book relevant to collection goals?
Copyright	Is content outdated?
Condition	Is book extremely worn?
Circulation history	Is book being borrowed? Review due date stamps in back.
Currency	Is newer information available? Does Library offer another available format? Can it be replaced by e-books or online information?
Duplication	Are multiple copies still circulated? Is information available in another source?

Books to Consider Keeping

Books donated with Gift Plates
Books by Lehman faculty Check Faculty Publications, http://www.lehman.cuny.edu/library/faculty-publications.php
Classic titles
Titles on local history or by local authors

Biographical titles

Books to Consider for Withdrawal

Items with physical deterioration: missing pages, damaged bindings, water or mold damage
Superseded editions

Excess duplicate copies. Two copies are sufficient unless proven demand exists. Exceptions are classics and consistently taught literary works.

Leonard Lief Library

Interlibrary Loan Privileges and Responsibilities Policy

Leonard Lief Library's Interlibrary Loan service gives patrons access to materials not available on campus or through the CUNY Libraries Inter-Campus Service [CLICS].

- Interlibrary Loan services are available to Lehman College faculty, staff, graduate students, and undergraduate students. The Interlibrary Loan Office will process up to ten requests per week per patron for a total of 170 per semester.
- Books or other materials borrowed through Interlibrary Loan must be picked up from and returned to the Circulation-Reserve Desk. Students may borrow five Interlibrary Loan books only at one time.
- Patrons are responsible for paying occasional fees for lending or photocopying materials. If the patron is unable to pay - the request will be returned. Failure to pay will result in loss of future Interlibrary Loan privileges.
- Lending libraries set their own due dates and usage restrictions - which must be adhered to by Lehman patrons. Failure to return materials on time will jeopardize future Interlibrary Loan privileges. If the lending library approves - a title may be renewed twice.
- Reference and Reserve materials, entire issues of journals, eBooks, and music recordings are not available through Interlibrary Loan. Faculty may borrow DVDs and videotapes *for teaching use only*. These materials can only be renewed once.
- Patrons will be charged for loss or damage to Interlibrary Loan materials.
- The Library reserves the right to decline a photocopying request if it violates copyright or other legal restrictions.

Leonard Lief Library

Open Access Policy

Leonard Lief Library faculty is committed to disseminating research and scholarship as widely as possible. We believe that Open Access to scholarship is critical for scholarly communication and the future of libraries. Further, we assert this is central to CUNY's mission of public education.

We acknowledge that Open Access publishing accrues value for a work. Accordingly, we advocate making our own research freely available whenever possible by seeking publishers who offer Open Access publishing or self-archiving options.

When necessary and when possible - we will attempt to negotiate with publishers to improve Open Access terms. If feasible, we will deposit our publications in the CUNY institutional repository.

Moreover, we will further support Open Access by contributing our reviewing and editing efforts to manuscripts destined for this format.

Privacy Statement

The privacy of all our users - including students, faculty, staff, alumni, and visitors - will be respected in compliance with Federal and state laws and professional standards.

Specifically, we support and comply with:

- *New York State Law*
 - [New York State Civil Practice Law & Rules 4509, Chapter 112, Laws of 1988]
- *Code of Ethics of American Library Association* with respect to confidentiality of library records including circulation of library materials, Interlibrary Loan transactions, reference queries, and course reserve requests.

All library records relating to an individual patron's use of the Library and its resources are considered confidential. These records may be consulted and used by library staff in the course of carrying out library operations - but will not be disclosed to others except upon request or consent of the library user - or pursuant to subpoena, court order, or otherwise required by law.

Any law enforcement requests for patron records will be referred to Lehman College's Legal Counsel. To better protect privacy of library patrons - CUNY's Office of Library Services has adopted procedures that minimize retention of library patron records.

We make every effort to protect each patron's right to privacy and confidentiality with respect to information sought or received - as well as resources consulted, borrowed, acquired, or transmitted.

However, CUNY Libraries - both individually and collectively - license information resources from commercial vendors. Ideally - in the process of negotiating licenses with vendors - CUNY Libraries endeavor to determine whether licensing language permits circumstances under which the vendor may sell or otherwise make user data available to third parties without permission from the licensing library. In these instances, licensing terms will be renegotiated.

Leonard Lief Library

Scholarship Statement

Scholarship is an important criterion for all faculty members who are expected to make a direct contribution to knowledge in their field of expertise and are measured by peer recognition.

Scholarship by library faculty may be demonstrated by:

- Publication in academic and professional journals, other refereed journals, books of high quality, reviews of scholarly publications, editing and translation, and digital or multimedia projects
- Through presentation of papers or participation in panel discussions at organized scholarly or professional conferences at the regional, national, or international level
- Through attraction of external support or competitive fellowships and awards appropriate to their field
- Through design of information and online instructional materials that make knowledge more accessible to researchers, scholars, and practitioners.

Lastly, the workload and terms of employment of library faculty differ from those of other faculty. While faculty in other departments are allotted twelve weeks of annual leave and work over a nine-month calendar that includes Winter and Spring recesses - library faculty are allotted eight weeks of annual leave and work over a twelve-month calendar that does not include recesses.

As a consequence - library faculty's scholarly contributions should be weighted proportionally in the overall evaluation of the candidate's worthiness for tenure, reappointment, and promotion.

Guidelines for Reappointment, Tenure, and Promotion
Approved by Library Faculty, July 2002
