PEOPLESOF 9.2 & CUNYfirst: Travel & Expense

Travel Authorization

With new performance improvements comes new terminology. The definitions below are provided to assist in understanding the PeopleSoft 9.2 upgrade to CUNYfirst.

Fluid – Fluid is a new interface where tiles are added to homepages for navigational ease instead of the Classic cascading pagelets/menus. Fluid is a modern, responsive user interface that provides the flexibility to work seamlessly from desktops, tablets and phones.

Homepage - The landing page for PeopleSoft navigation. A user can have several homepages but only one default (e.g., Employee Self-Service). Homepages can be customized to accommodate your personal interaction with the system. Click on the Homepage drop-down arrow to access other component homepages.

Tile – visual navigation component within the fluid interface.

The upgraded CUNYfirst provides access to a fluid and classic navigation interface. The fluid navigation provides a different look and feel but contains the elements CUNYfirst. The classic navigation provides a similar navigation and page style to your current CUNYfirst system.

Note: Please follow the suggested transaction navigation.
