

## Advanced Certificate in Science of Reading

The Advanced Certificate in the Science of Reading program is designed for individuals in educational and nontraditional educational settings who want to gain an understanding of the principles of the Science of Reading and how to apply evidence-based instruction and assessment practices for developing oral language, phonemic awareness, phonics, fluency, vocabulary, and comprehension skills. This advanced certificate program does not lead to state teacher licensure.

- Official transcripts from all post-secondary institutions attended;
- A Bachelor's degree or higher from an accredited college or university;
- A minimum 3.0 (B) GPA from a completed undergraduate degree program;
- Two letters of recommendation from your previous or current professors, employers, or professional colleagues;
- A written one-page essay that addresses the following question: How will this advanced certificate in the Science of Reading contribute to your professional goals and advance your knowledge?
- Evidence of experience in a traditional or nontraditional educational setting, such as pre-service teacher training, P-12 school positions, after-school tutor, librarian, etc. (May be waived at the discretion of the program coordinator.);
- If educated in a country other than the U.S. review
